

ANNUAL REPORT 2008

ST. JOHN'S

DID YOU KNOW THAT

- ☉ The City of St. John's hosted four Citizenship Ceremonies in 2008.
- ☉ In addition to the committees of Council, there are also many joint committees with external organizations such as the Mayor's Advisory Committee on Youth, Mayor's Advisory Committee on the Status of Persons with Disabilities, and the Mayor's Advisory Committee on Seniors.
- ☉ The City of St. John's supports many community facilities and groups including the Resource Centre for the Arts, Railway Coastal Museum, and the Newfoundland Symphony Orchestra.
- ☉ The City publishes a monthly economic snapshot and a bi-annual economic outlook report.
- ☉ The St. John's Census Metropolitan Area (CMA) ranked third in terms of employment growth among 27 CMAs throughout Canada in 2008 with growth of 4.2%.
- ☉ St. John's was also ranked 5th for best development and investment promotion for a small city by Foreign Direct Investment (fDi) Magazine.

Economic Review 2008
St. John's Metropolitan Area

2008 Performance

St. John's Census Metropolitan Area (CMA) continued to see strong growth in 2008 as it added 4,000 jobs to its labour force. The CMA's unemployment rate fell to 10.1% in 2008, down from 10.5% in 2007. The CMA's total population was 215,000 in 2008, up from 213,000 in 2007. The CMA's total employment was 190,000 in 2008, up from 186,000 in 2007. The CMA's total population was 215,000 in 2008, up from 213,000 in 2007. The CMA's total employment was 190,000 in 2008, up from 186,000 in 2007.

Outlook for 2009

St. John's CMA is expected to continue its strong growth in 2009. The CMA's unemployment rate is expected to fall to 9.5% in 2009, down from 10.1% in 2008. The CMA's total population is expected to be 216,000 in 2009, up from 215,000 in 2008. The CMA's total employment is expected to be 191,000 in 2009, up from 190,000 in 2008.

	2007	2008	% Change
Total Population	213,000	215,000	0.9%
Total Employment	186,000	190,000	2.2%
Unemployment Rate	10.5%	10.1%	-0.4%
Population 15 and over	198,000	200,000	1.0%
Population 15 and over - employed	173,000	177,000	2.3%
Population 15 and over - unemployed	25,000	23,000	-8.0%
Population 15 and over - not in labour force	25,000	23,000	-8.0%
Population 15 and over - total	198,000	200,000	1.0%
Population 15 and over - employed	173,000	177,000	2.3%
Population 15 and over - unemployed	25,000	23,000	-8.0%
Population 15 and over - not in labour force	25,000	23,000	-8.0%
Population 15 and over - total	198,000	200,000	1.0%

October 2008

ST. JOHN'S

MESSAGE FROM THE MAYOR

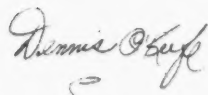

It is my pleasure to present the City of St. John's Annual Report for 2008.

The City of St. John's is working diligently to build a healthy and prosperous community, and has achieved success on several fronts. This document will describe some of the exciting initiatives happening in our city while highlighting our accomplishments.

The economy of the St. John's area continues to produce positive indicators as growth and development continue. Increases in personal income, employment, and population resulted in strong growth in retail sales, which have increased to \$3 billion. Housing starts have also increased to 1,863 units, the highest level in over 30 years.

To build a healthy community, we aim to balance economic performance and fiscal responsibility with social consciousness. Essential infrastructure programs are complemented by recreation and leisure services, and work on issues such as affordable housing.

I would like to thank staff for their dedication and the many volunteers with various organizations throughout the City that work together to build a healthy and inclusive community. Finally, I would like to extend our gratitude to Mr. Andy Wells who resigned as Mayor in 2008, for the contributions he has made to the City of St. John's during his time on Council.

Dennis O'Keefe
Mayor

CITY COUNCIL 2008

Seated (l - r):

BUILDING A HEALTHY CITY

St. John's - this is where we live, work, and play!

A strong economy, promotion of active living, and environmental programming are just a few ways to gauge the health and well being of a city. While the City carries out its mandate to provide safe roads, services, and infrastructure, there are a vast number of other initiatives the City of St. John's undertakes on behalf of citizens to ensure a better quality of life.

We have a team working hard to ensure that your city develops and expands in a manner that not only preserves, but enhances the elements of a healthy community. Recreation and seniors programs, assistance for community groups, and arts programs all contribute to a vibrant community. Working with community-based organizations and cooperating with other levels of government, enables us to move initiatives forward, making St. John's a better place for all citizens.

ST. JOHN'S

PARTNERS IN YOUR COMMUNITY

L-R: John Downton, Past-Chair BPF, Mayor Dennis O'Keefe, Mike Power, Chair BPF, Ken Dyer, Husky Energy

Photo courtesy of Bowring Park Foundation

The new "Husky Energy Fountain" in Bowring Park was officially opened on August 20th, 2008. The project was made possible through funding support from the City of St. John's, the Bowring Park Foundation and Husky Energy. At the opening ceremonies, Mayor Dennis O'Keefe noted how this project is an outstanding example of what can be achieved when the City works in partnership with great community-minded organizations. This addition to Bowring Park will be enjoyed by residents for generations, and represents a significant step forward for the park revitalization project.

4 Three levels of government, the sports community, and the private sector have partnered to make the new Newfoundland and Labrador Sports Centre on Crosbie Road a reality. The facility is utilized for a range of activities.

In addition to being a venue for provincial, national and international sporting competitions, the centre offers athletes access to world-class training facilities. The centre includes two buildings, the multi purpose indoor training facility named the PowerPlex and the Dr. Noel Browne High-Performance Centre which is an extension to the adjacent Swilers Rugby Club. The PowerPlex boasts one of the largest hardwood sports floors in Canada capable of having four basketball, seven volleyball and seven badminton courts playable at any one time.

Pre-school age children take part in an Active Kids Program that is offered at the facility, and the Newfoundland Cardiac Rehab Association (NCRA) also administers programs from the centre. The facility hosts many other programs as administered by the various provincial sports organizations that cater to athletes young and old.

SUPPORTING HEALTHY LIVING

The Department of Public Works & Parks maintained 39 parks, 3,065 hectares of open space, 110 playgrounds, 53 sports fields, and 31 basketball and tennis facilities. The Department also managed 155 kilometres of walking trails and 53,000 mature trees.

WASTE DIVERSION

In March 2008 the City of St. John's unveiled its city-wide Waste Diversion Program which includes the curbside collection of recyclable and organic waste. The program will be launched in two phases; recyclables in 2010 when the construction of the Materials Recovery Facility is completed and organics in 2011 when the construction of the Central Composting Facility is completed. Both facilities will be located at the Regional Integrated Waste Management Facility located at Robin Hood Bay.

The City implemented a Waste Diversion Pilot Project in 2007 to gather data and information to determine the direction it would take on a city-wide curb side recycling program. Two areas of the city were selected to carry out the pilot, Cowan Heights, and an area in the Downtown. Participants were supplied with blue transparent bags for their recycling, and asked to sort their recyclable matter. Participants were asked to set out their sorted recycling and organics on the same collection day as their garbage. Data was collected for six months, and participation rates reached 65% in Cowan Heights and 40% in the Downtown. In early 2008, all of the information was recorded and analyzed with a final report presented to Council, recommending the implementation of a city-wide recycling and organics program. The pilot continued throughout 2008, collecting both recycling and organics and participation rates remained consistent.

BUILDING NEW NEIGHBOURHOODS

New housing developments are just one sign of a healthy economy. In 2008, several areas of the city were slated for development.

The redevelopment of the federal lands at Pleasantville by the Canada Lands Company (CLC) will create a large new neighbourhood with excellent amenities and a variety of housing, all on the shores of Quidi Vidi Lake. CLC now owns most of the federal lands, and is the landlord for much of Canadian Forces Station St. John's. CLC worked with the City and held extensive public consultations in 2008, including open houses in November, leading to a redevelopment plan that will be implemented in 2009.

The former Sprung Greenhouse site off Commonwealth Avenue, (accessed via Mount Pearl), was rezoned in 2008 and will be home to the new Brookfield Plains neighbourhood.

FAST FACTS

In the Department of Planning, 455 development applications and active files were opened in 2008, a record number.

YOUTH AND THE CITY

In May 2008, the Mayor's Advisory Committee on Youth (MACY) launched a new website for youth, designed by youth.

STJOHNSYOUTH.CA allows users to search through a calendar of events, look for volunteer opportunities, or get tips on

writing their resume. The website has 191 links to other programs, services and information, and a gallery where art work submitted to the Youth Only Art Show can be posted.

BUILDING INCLUSIVE PROGRAMS

The R.E.A.L. Program (Recreational Experiences and Leisure), continues to help all children access recreation opportunities. In 2008, the program experienced growth of 30% with children and youth from low income families placed into 1,675 programs at 70 different recreational and arts-based organizations.

The City of St. John's Department of Recreation has an inclusive mandate that encourages persons with a disability and/or individuals who require support to

participate in recreation programs. Program information such as brochures or flyers are available in alternate formats such as Braille, large print, or audio cassette. Attendant passes are available to persons living with disabilities who require an attendant or support worker to accompany them to activities or events. This pass enables the attendant to be admitted free of charge to certain activities/events. Over 150 attendant passes were in circulation during 2008.

IN YOUR COMMUNITY

The Community Development Division of the Department of Recreation had liaisons or partnerships with 199 organizations, involving 368 initiatives during 2008. This involved working with organizations from a variety of sectors including; neighbourhoods, health, parks, youth, education and sport.

2008 HIGHLIGHTS

- 2,717 youth registered to play soccer
- The H.G.R. Mews Community Centre and the Wedgewood Park Recreation Centre facilities recorded over 297,000 visits.
- Outdoor pools had over 36,000 visitors

ST. JOHN'S REGIONAL FIRE DEPARTMENT— MORE THAN FIGHTING FIRES

The St. John's Regional Fire Department (SJRF) is responsible for providing the St. John's metropolitan area with fire and emergency protection. Along with responding to fire, vehicle and medical emergencies, SJRF also has special teams ready to respond to hazardous material emergencies, helicopter rescues, high angle (cliff) rescues, water rescues and confined space rescues.

In 2008 the SJRF purchased a new Bronto Skylife Aerial Platform, which is a fire apparatus with a permanently mounted fire pump, water tank, hose storage area, aerial ladder or elevating platform with permanently mounted waterway, and a complement of ground ladders. This truck is a valuable asset to the SJRF for fighting fires in the centre of St. John's.

IMPROVING THE WAY WE DO BUSINESS

PROJECT **VELOCITY**

Achieving Excellence Through Business Transformation

The City of St. John's strives to provide superior service to the citizens and businesses in our community. To achieve this goal, employees are moving toward using the most progressive business practices available.

Accordingly, the City has embarked on a complete business process transformation with the implementation of an Integrated Municipal Management/Enterprise Resource Planning (ERP) system, called Project Velocity. Implementation will take place over the next four years, consolidating all departmental data and functions on a single electronic system.

Both Council and staff are fully committed to the implementation of Project Velocity. As employees embrace the new technology and the opportunity to upgrade and diversify their skills, service delivery to the general public will be enhanced.

7

FAST FACTS

In 2008:

- ☛ 164 full-time firefighters responded to 4,772 emergencies and alarms
- ☛ 911 Communications Centre answered 50,211 calls
- ☛ 2,372 inspections were performed
- ☛ 60 training lectures on fire safety were conducted
- ☛ 53 fire drills were conducted
- ☛ Learn not to Burn Program was delivered 26 times

PROMOTING EMPLOYEE HEALTH AND WELLNESS

The City recognizes that one of the cornerstones of any healthy and safe workplace is the promotion of personal wellbeing. In 2008, the City undertook a wellness initiative to promote and encourage employees in their pursuit of personal health and wellbeing. The goal was to educate employees regarding wellness, provide them with a snapshot of their health and provide information and support to assist in maintaining or improving their health and wellness.

Some of the projects undertaken included a pilot project (Fit For Life, Paving the Way) with Public Works and Parks (Streets Division), the establishment of an employee fitness and leisure room at the Depot, and the development of Wellness Education Sessions for all employees. Other initiatives include the launch of lunchtime fitness classes at the Newfoundland and Labrador Sports Centre, a new walking program designed to offer employees a fitness alternative on their lunch break, weekly wellness tips featured on the intranet, and a stretching/warm-up routine for Sanitation Operators.

On October 1, 2008 the City of St. John's opened its Employee Health and Wellness Centre located at the City Municipal Depot. The main focus has been to promote a culture where all city employees can achieve and maintain optimal health and wellness. The Health and Wellness Centre will be coordinated by the City's Employee Wellness Division with programs offered ranging from personal wellness assessments and planning, to educational seminars on health related topics.

ANNOUNCING...RIPPLES

Ripples

Volume 1, Issue 1

For City of St. John's Employees

April 16, 2008

Welcome to our first edition of the City's monthly e-newsletter - *Ripples*. It's designed to be concise and give you regular updates about our organization. The newsletter is published by the Department of Human Resources, but would not be possible without the input from all City Departments. I encourage you to provide your feedback and ideas to Mary or Tina in HR.

Happy Reading!
Kevin Brown, Director, Department of Human Resources

Corporate Identity: Change may be difficult, but the results can be inspiring. Check out the new Corporate Identity and how it is creating a fresh image of our great city. For more information on the Corporate Identity please refer to the Intranet for details. Here are a few places where you can see the new City Logo.

**What is our City Doing to Sustain our Environment?**

- Using 5 hybrid vehicles in Parking Services as part of its mandate to reduce emissions
- Reducing fuel and salt consumption by planning route activities more effectively
- Promoting anti-idling—Check out the anti-idling policy # 03-10-17
- Currently transitioning Robin Hood into an integrated waste management facility for the Avalon region
- Planning for a materials recovery facility, centralized composting facility and a household waste depot
- Planning for the implementation of a city wide curbside recycling program—2009
- Planning for the curbside collection of organics—2010

Earth Day is April 22, 2008—Protect your environment! Reduce, Reuse and Recycle. For more information please contact Terry King—Manager of Environmental Initiatives at 576-8013.

Thank You!

After 40 1/4 years of snow, we felt the chill of winter. Now spring has finally arrived and we want to thank all of our snowclearing crews and support persons. They have once again done a phenomenal job of keeping our streets clear and safe! Well done!

"If nothing changed, there would be no butterflies." Indian proverb

ST. JOHN'S

In 2008 the City launched a new monthly e-newsletter - *Ripples*. *Ripples* is designed to improve information flow and provide staff with regular updates about the organization and current topics. The newsletter is published by the Department of Human Resources with input from all City departments.

RECOGNIZING OUTSTANDING SERVICE

Outstanding Service Awards are presented to City employees showing the most outstanding performance of work activities in one or more areas. The individuals receiving this award were nominated by a City employee, and then selected by a committee consisting of all directors heading City departments. This year the award was presented to Anita Rossiter, Office Services Supervisor, Department of Corporate Services.

The resignation of Mayor Andy Wells resulted in the calling of a by-election for June 3, 2008.

Coincidentally, the Deputy Mayor and the Councillor for Ward 4 also resigned to run in the by-election.

The City again used the Vote-By-Mail system which had seen a high degree of acceptance in previous elections. Voter kits were placed in the mail on May 16, with the voters casting their votes and placing them in the return mail up to June 3.

A total of 36,874 votes were cast resulting in the election of three members to Council: Mayor Dennis O'Keefe; Deputy Mayor Ron Ellsworth; and Ward 4 Councillor Debbie Hanlon. The newly constituted Council will manage the City's affairs until the next general municipal election scheduled for September 29, 2009.

9

L-R: Ron Penney, Anita Rossiter, Mayor O'Keefe

ST. JOHN'S

AT YOUR SERVICE!

In addition to maintaining our roads, clearing our streets, and collecting our garbage, the Department of Public Works & Parks responds to thousands of service requests. These may include repairing water main breaks, flushing blocked sewer mains, and completing water and sewer laterals.

Each year, the City surveys residents who have requested service to determine their level of satisfaction. Employees including the Switchboard Operator, On-site Supervisor and Work Crew continue to score highly in areas of attitude and efficiency. The survey results also measures the overall rating of service which again scored well in 2008.

RESPONDING TO CITIZEN'S CONCERNS

In January of 2008, a new policy granted the City of St. John's the right to issue tickets for certain by-law violations including by-laws concerning litter, snow removal, animal control and noise.

This ticketing option allows for a much quicker response to citizens complaints and eliminates much of the legal action, or red tape, of processing an action through the Courts. This new policy tends to increase the success rate as well, as recipients are more inclined to comply with requirements.

Access Centre Activity

Building permits issued:	4,579
Repair permits issued:	628
Electrical permits issued:	2,722
Plumbing permits issued:	1,456

ACCESS ST. JOHN'S

Access St. John's continues to provide citizens with the means to contact City Hall at any time, night or day. The call centre operates 24 hours a day, 365 days a year. In 2008, over 123,000 telephone calls were received and electronically processed through the City's 3-1-1 service.

Many financial transactions take place at the front counter of the service centre including tax payments, general and property inquiries, and issuing of permits such as downtown parking, sanitary landfill, street excavation and building permits.

The City commissioned an external, independent survey of users of Access St. John's services to determine how satisfied citizens were overall with the service provided throughout 2008 and to compare the results with 2006 and 2007 satisfaction levels. Six hundred interviews were completed with randomly selected residential and business clients and the survey confirmed the high level of service continuing to be provided by Access St. John's. The results assist staff in understanding what is most important to citizens and to make improvements to meet clients' needs.

A CLEANER HARBOUR

Investment in the single largest capital project ever undertaken by the City, the Harbour Clean-Up Project, continued in 2008 with \$35 million being spent. By its completion in 2010, the project is estimated to cost \$150 million. This year saw construction on the Riverhead Wastewater Treatment Plant continuing and a section of the Harbour Interceptor Sewer that rings the harbour installed on Harbour Drive from Waldegrave Street to Bishop's Cove.

11

INFRASTRUCTURE AND CAPITAL INVESTMENT

The City of St. John's continues to invest in streets, bridges, and water and sewer infrastructure, spending \$15 million in 2008. Investment in city streets was \$6.7 million and in total 67 streets were rehabilitated and traffic signals were upgraded at five intersections.

ART IN YOUR COMMUNITY

In 2008 the City unveiled its latest piece of public art. "A Time", located on George Street, is the creation of local artist Morgan MacDonald. This legacy piece was a result of the Cultural Capital program funding along with support from the City of St. John's and Ms. Eleanor Gill Ratcliffe. It recognizes the contribution of the arts to the City of St. John's and the sculpture itself depicts the variety of disciplines with the bands of bronze symbolizing the energy of the arts community.

CITY AS A CANVAS

The Battery mural was created by Derek Holmes and April Norman in the summer of 2008. The Outer Battery Road retaining wall was chosen in response to suggestions from Battery residents and designs for the walls came from input from the local community.

The "City as a Canvas" mural program has as its goals to engage the public with art, invest in our local arts community, and celebrate our culture and heritage.

In this mural the artist's intention was to recreate images from the Battery's past as a way of preserving it, as well as to enlighten the thousands of residents and visitors who travel past this wall on their way to hike Signal Hill. It was the intention of the City of St. John's to commemorate the Battery and the people who have forged a community on the craggy rocks.

THE GROWING TOURISM INDUSTRY

St. John's abounds with spectacular ocean views, scenery, wonderful urban parks, charming streetscapes and significant historical sites. Visitors quickly discover why St. John's calls itself "The City of Legends." In 2008, St. John's hosted 975,000 visitors and tourism contributed \$337 million to the St. John's economy.

2008 HIGHLIGHTS

St. John's hosted 357,270 out of province visitors, spending a record \$202 million.

The accommodation sector recorded its best year in history, with 558,210 room nights sold.

The City of St. John's Visitor Information Centre serviced a record 17,591 visitors.

Total passenger movements at St. John's International Airport reached 1,222,585.

The cruise industry contributed a record \$2.6 million to the local economy. 15,153 cruise passengers and 7,193 crew on 18 ships visited St. John's in 2008.

CULTURAL EXCHANGE 2

Partnering with the Provincial Department of Tourism, Culture & Recreation and Parks Canada, the City of St. John's once again offered a unique event to bring together people working in culture and tourism to discover potential partnerships.

The event offered a jam packed two days of learning on the development, pricing, packaging and selling of unique tourism experiences. Led by well known speaker and trainer Joe Veneto, the event offered participants the tools to build a package and concluded with a series of one-on-one appointments to put the learning into practice, and find potential partners to develop their package ideas.

Fifty people including accommodations operators, musicians, festival organizers, natural attraction and tourism association representatives, participated in the event.

A HEALTHY ECONOMY

While the global economy was feeling the effects of a recession in 2008, the St. John's metro area weathered the economic storm better than most other jurisdictions in Canada. While the level of GDP did decline, trends in other economic indicators, which better reflect the overall strength of the local economy, performed well above those of most other Canadian regions.

Increases in personal income, employment, and population resulted in strong growth in retail sales, which have increased to \$3 billion, and housing starts increased to 1,863 units, the highest level in over 30 years. The real estate and residential construction industries of the metro region bucked the national trend.

The number of business occupancies recorded by the City reached 3,622, with 133 new businesses approved in 2008.

ST. JOHN'S

FINANCIAL RESULTS

The attached schedule includes the City of St. John's Consolidated Statement of Operations and Accumulated Surplus for the year ended December 31, 2008, as well as a supplementary schedule showing condensed results and a comparison to budget on the cash basis of accounting. As in 2007 the City of St. John's presents the full consolidated financial statements on the accrual basis and in compliance with Canadian generally accepted accounting principles for local governments. The City is, however, still required by its governing legislation to prepare its budget on the cash basis of accounting.

The results for 2008 show an excess of revenue over expenditure of \$44,793,021 however this is primarily a result of including in revenue capital grants from third

parties, primarily the senior levels of government. Effectively, revenue is recorded in the year in which the grants are received but the related expenses, which will be the annual depreciation on the capital assets acquired or constructed, will be recorded in future years.

The condensed, cash basis statement provides a better picture of the City's current operations in 2008 with an operating surplus of \$894,281 on total revenues of \$179,078,374.

The full Consolidated Financial Statements of the City, along with an extensive discussion of the financial results for 2008 are available upon request and are also available on-line on the City's website at www.stjohns.ca/cityhall/publications.jsp.
